Location & surrounding area:

Ugljan has an area of 50.21 km² and is one of the densely populated islands of Croatia. It is located northwest of the island of Pasman and is separated by the Zadar Channel from the mainland.

At the bay Zdrelac, a 210 meter long bridge connects Ugljan with the neighboring island of Pasman.

The long history of the island is very interesting and goes back to the Middle Ages. Many of the towns were founded at that time and even today many remains of these ancient buildings can be seen.

Many residents of Zadar have their holiday homes on the island and so Ugljan has become a weekend retreat for the locals and tourists.
